

## **Gotta Keep Going**

**Reviewing all my current goals and aspirations  
Realized I needed focus and dedication  
Prioritization. Extra motivation  
Allowing inspiration to guide me from integration to celebration  
Feel that sense of accomplishment when the job's complete  
Refuse to accept defeat from my own mind  
When it's "Go time" Hit the road time  
No turning back after committing to a better life  
While helping to make the world a better place for everyone to live in  
I was told: Make use of the gifts I was given  
Escape my mind-made prison. Won't try to fit in  
So I double-down when those thoughts think of quitting  
Too much at stake to just keep quiet  
This is my idea of starting a riot  
Nonviolent. Just words of peace  
Making a point to make good on this life I leased**

**Gotta keep going. Gotta keep going  
Gotta keep, gotta keep, gotta keep going  
Gotta keep going the distance  
Gotta keep showing persistence  
Gotta keep making those strides  
Gotta keep putting our lives on the rise  
Gotta keep going. Gotta keep going  
Gotta keep, gotta keep, gotta keep going**

**Gotta keep going. Gotta keep flowing  
Keep on growing and showing there's no sign of slowing  
Knowing the road to freedom is not paved with shortcuts  
Avoid those trap doors with if ands or more buts  
Keep going. Too many reasons to pit stop  
Delays the view from when we get to the tip top  
Even if it takes a few more baby steps to get it done  
The tougher the climb, the more it's earned  
Extra effort put in should be of no concern  
Full throttle. No reserves to burn  
What the world needs right now, Love sweet Love  
More fist bumps, handshakes and hugs  
The world's unrest puts love to the test  
The ominous tone, an alarm ringing. A wake up call  
Telling me to do my part to help lift each other up  
On the rise. We're all filling our own cups**

**Gotta keep going. Gotta keep going  
Gotta keep, gotta keep, gotta keep going  
Gotta keep going the distance  
Gotta keep showing persistence  
Gotta keep making those strides  
Gotta keep putting our lives on the rise  
Gotta keep going. Gotta keep going  
Gotta keep, gotta keep, gotta keep going**

**Gotta keep following through on those commitments  
Staying over-dedicated to the mission  
Peace. Love. Community. It's all there  
The ingredients to moments of bliss we all share  
That's how I know when my heart is in the right spot  
Respect. Perspective. Give it what I got  
Keep on heading down that right path  
Let fear cancel out any doubt that I might have  
Knowing the juice is worth the squeeze, I'm Hercules  
Verse by verse, spreading Love across the Earth  
Such a powerful force as it mends  
The one thing we all share and long for in the end  
Gotta keep promoting that untapped Love we hide  
Making hearts happy while Enjoying the Ride  
That's what it's all about. Just want to shout it out  
Let's keep this Love thing going. Watch the Love keep growing**

**Gotta keep going. Gotta keep going  
Gotta keep, gotta keep, gotta keep going  
Gotta keep going the distance  
Gotta keep showing persistence  
Gotta keep making those strides  
Gotta keep putting our lives on the rise  
Gotta keep going. Gotta keep going  
Gotta keep, gotta keep, gotta keep going**
